

LOKESH KUMAR

FRONT-END DEVELOPER

Mohali (Punjab), India • 8278876899 • lokeshatter@gmail.com

Innovative and detail-oriented Front-End Developer with 3+ years of experience in designing and building highly responsive, user-centric web applications. Proficient in modern JavaScript frameworks (React.js), CSS architecture (Tailwind, Bootstrap), and CMS platforms (WordPress, Webflow). Strong track record of transforming complex UI/UX designs into scalable, high-performance code while ensuring cross-browser compatibility and seamless REST API integrations. Passionate about leveraging new technologies to enhance digital user experiences.

PROFESSIONAL EXPERIENCE

Front-End Developer

Sagmetic Infotech Private Limited

Dec 2022 – Present

Mohali, India

- Architected and maintained highly responsive, mobile-first web applications, ensuring optimal performance and seamless user experiences across all devices.
- Built reusable, modular, and scalable UI components utilizing React.js, significantly reducing future development time for complex features.
- Integrated RESTful APIs directly into the frontend infrastructure to handle dynamic data rendering and asynchronous state management.
- Collaborated cross-functionally with backend developers and UI/UX designers to translate wireframes into interactive and visually appealing prototypes.
- Optimized core application architecture for maximum speed, reducing load times, fixing usability bugs, and ensuring strict cross-browser compatibility.

TECHNICAL SKILLS

Core Languages

JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries

React.js, Tailwind CSS, Bootstrap, jQuery

CMS & Website Builders

WordPress, Webflow, Squarespace

Concepts & Tools

Responsive Web Design, REST API Integration, Cross-Browser Compatibility, Performance Optimization, UI/UX Implementation

KEY PROJECTS

Dropship Academy X Platform

dropshipacademyx.nl

Description: A comprehensive e-learning and networking platform designed to provide dropshipping education and resources.

Responsibilities: Developed the dynamic frontend architecture, ensuring a highly responsive and engaging user interface. Handled state management and data rendering to provide a seamless educational journey for users.

Near Human (Interactive Web Application)

near-human.vercel.app

Description: A modern, interactive web application deployed on Vercel, focusing on smooth animations and advanced UI concepts.

Responsibilities: Built core components utilizing React.js and modern CSS frameworks. Integrated APIs for dynamic content updates and optimized the application for mobile responsiveness.

FCookie Web App

fcookie.vercel.app

Description: A lightweight, high-performance web interface designed for rapid user interaction.

Responsibilities: Translated strict UI/UX design mockups into functional frontend code. Ensured cross-browser compatibility and optimized loading speed.

Vertiqo-K Enterprise Landing Page

[Vertiqo-K Live Demo](#)

Description: A professional corporate landing page template built to showcase business services and portfolios.

Responsibilities: Crafted semantic HTML5 and custom CSS to create a pixel-perfect, fully responsive grid layout tailored for corporate client branding.
